

Casino Game Logs Audit Report

The Directors
Sports Interaction

This is to confirm that iTech Labs has examined the casino game logs in the gaming system of Sports Interaction for the period **April 01, 2010** to **June 30, 2010** as recorded by the respective game servers. The table below shows calculated Return To Player (RTP) for real money games played at the Sports Interaction game servers. The Sports Interaction game servers service the following internet gaming sites:

Sports Interaction (www.sportsinteraction.com)

Game Name	Actual RTP
Baccarat	100.82%
Blackjack	98.35%
Blackjack Surrender	97.90%
Caribbean Poker	97.55%
Casino Hold 'Em	97.47%
Craps	97.46%
Let Them Ride	96.81%
Poker Three	96.71%
Cardwars	96.63%
European Roulette	96.28%
Video Pokers	95.75%
Slot Machines	94.96%
Pokerbet	94.92%
Pai Gow Poker	93.90%
American Roulette	93.00%
Sic Bo	87.06%
Average payout for all games	97.57%

The actual RTPs shown are percentages of total actual winnings to bets for each game type. They do not reflect outcomes for individual games or future games. iTech Labs has done limited sanity checks to verify the integrity of the game logs. iTech Labs also maintains a copy of the game logs for verification purposes. There were a large enough number of game records to give the RTP calculations sufficient statistical power. The actual RTPs are greater than normally required by gaming jurisdictions.

The scope of the review did not include reviews of financial controls or casino operations. We believe that the RTPs were calculated correctly from the game logs based on the actual bets and winnings. Please click here to see the [Original](#) audit report at iTech Labs web site.
