CERTIFICATE OF CONTROL SYSTEMS EFFECTIVENESS

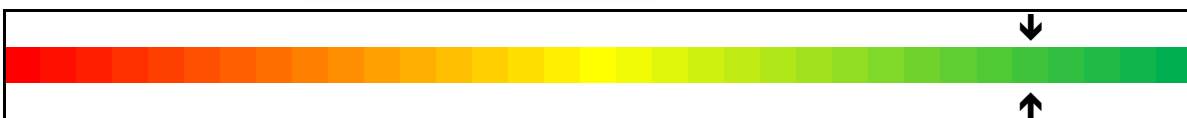

2011

Gaming Associates (**ga**) has undertaken an assessment Sports Interactions control systems versus the requirements set out in the Kahnawake Gaming Commission's *Regulations Concerning Interactive Gaming* 16-Feb-2011. The scope of the assessment included Sports Interaction's systems relating to:

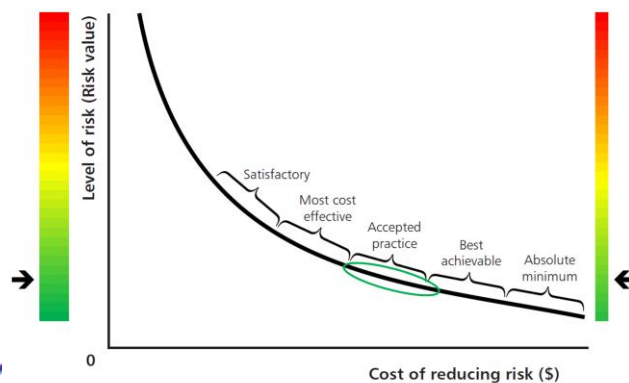

- player protection;
- complaints and dispute resolution;
- prizes;
- responsible gaming;
- records and reports;
- systems security measures; and
- advertising.

The assessment is based on **ga**'s examination of implemented control systems as at Mar-2011, it does not include gaming equipment (software and hardware).

ga considers the control systems represent "**accepted practice**" risk to regulatory compliance in the context of the scope cited above. **ga**'s risk score is as follows.

Risk assessments are imprecise, **ga** has drawn on its extensive experience and knowledge of interactive gaming and formal risk management techniques and international standards in forming this score.
